NANOLITE

Materials for what comes next.

Explore Nanolite materials and manufacturing systems, from the first foundation to the finished building.

Materials & Manufacturing

Concept visuals illustrate product applications. Confirm current specifications, suitability, pricing and availability with the Nanolite team.

NANOLITE

PRODUCT 01 / 12

CLC Blocks

Cellular Lightweight Concrete (CLC) combines a fine-pored cement-based body with a lighter masonry format. The cellular structure supports thermal insulation and makes blocks easier to handle, cut and lay. Use CLC as infill within a project-designed structural frame.

- Lightweight wall infill
- Fine-pored cellular structure
- Thermal insulation
- Cutting and laying flexibility

PRODUCT 02 / 12

Precast Panels

Precast concrete panels for planned construction applications. Ask our team about suitability and specifications.

- Precast concrete construction
- Planned lifting and installation
- Project-specific panel specifications

PRODUCT 03 / 12

Insulated Roof Tiles

A roof-insulation solution with a finished mineral surface. Discuss the right assembly for your building.

- Finished mineral roof surface
- Roof insulation application
- Assembly guidance for your building

PRODUCT 04 / 12

Nano Hybrid Wall System

A wall system combining masonry, CLC infill and concrete elements. Explore the components with our team.

- Masonry and CLC infill
- Concrete frame and bond beam
- Explore each wall layer

PRODUCT 05 / 12

Permeable Concrete

Porous concrete for water-permeable paving applications. Project design and drainage details require technical review.

- Water-permeable paving
- Porous concrete surface
- Drainage assembly design

PRODUCT 06 / 12

Nano ReadyMix

40 kg ReadyMix bags. Pakistan material price: PKR 600 per bag (PKR 15/kg). Freight and tax are confirmed separately.

- 40 kg bag
- Pakistan material price: PKR 600 / bag
- Freight and tax confirmed separately

PRODUCT 07 / 12

Ready Foaming Agent

Foaming agent in 200-litre drums. Pakistan material price: PKR 1,000/litre. Sales quantity is confirmed with our team.

- 200-litre storage drums
- Pakistan material price: PKR 1,000 / litre
- Sales quantity confirmed with our team

PRODUCT 08 / 12

T-500 Plant

A compact portable plant for businesses entering lightweight concrete manufacturing.

- Compact portable configuration
- Explore the mixing equipment
- Discuss utilities and site readiness

PRODUCT 09 / 12

T-1000 Plant

A portable white and blue plant for growing manufacturers.

- Portable white and blue configuration
- Explore chassis, mixer and controls
- Request the approved equipment specification

PRODUCT 10 / 12

T-5000 Franchise

A larger portable plant for businesses entering industrial production.

- Larger portable configuration
- Explore the mixing and control systems
- Discuss your manufacturing requirements

PRODUCT 11 / 12

T-10000 Franchise

An installed manufacturing plant with mixing, material storage and control systems.

- Installed mixing and material storage
- Access platforms and control systems
- Discuss your production site layout

PRODUCT 12 / 12

T-15000 Franchise

A flagship manufacturing system for businesses planning an integrated production facility.

- Integrated manufacturing facility
- Mixing, storage and material handling
- Discuss equipment and site planning
